

Temporary Fire Alarm System for Ship Building & Construction

Front View

Rear View

Combined Smoke & Heat Detector Outstation

The Temporary Fire Alarm System is an intelligent system that is based on technology which is currently protecting the public and the workforce in a variety of environments such as hospitals, public buildings, ship buildings, ship repairs, underground railway systems and schools.

Features

- **Robust**
- **Light Weight**
- **Flame Retardant Housing (4mm ABS)**
- **Quick and Easy to Install**
- **Plug and Play Technology**

Benefits

- **Improves Safety**
- **Improves Production**
- **Increases Profits**

Application

- **Ship Building**
- **Ship Repair**
- **Construction**
- **Railways**
- **Tunnelling**

Product Information

- The Fire Alarm Outstation is coloured red and vacuum formed from 4mm flame retardant ABS.
- The housing is manufactured to IP44. This IP rating is due to the rating of the Smoke and Heat Detector.
- Each Fire Alarm Outstation comes complete with two unique angled 5pin electrical sockets and two electrical plugs manufactured to BS4343. The electrical sockets and plugs when connected together with suitable cable will provide the electrical connection between the main fire alarm control panel, other fire alarm outstations, the loop circuit, fire alarm transducer for initiating the fire alarm, auxiliary circuits, audible and visual indicators.
- To prevent ingress of moisture, a rubber gasket is fitted to the face of the box to which the lid is secured.
- A Combined Smoke and Heat Detector is fitted to the front lid of the housing. Electrical terminations are made inside the outstation by means of suitable terminal connectors.
- Two magnets are fitted to the base of the housing to allow the housing to be secured to the metal structure of the vessel.
- Metal wire loops can be provided for a additional support for the housing.
- Labels are fitted to the junction box to provide the identification and date of manufacture.
- Labels are fitted to the box to indicate loop in and loop out.

Product Code

Combined Smoke and Heat Detector
